**BRAZILIAN POLICE UNEARTH AN-ARCHIST PLOT TO DESTROY AMERICAN FLEET.**

### FLEE TO THE INTERIOR

Flight of Conspirators Sets at Rest Fears of Damage to Ships. Archconspirator a Native.

Rio Janeiro, Jan. 19.—The Brazilian police have discovered an anarchistic plot here having as its object the destruction of part of the American fleet now lying in the harbor. The conspiracy, while centering in Rio Janeiro and Petropolis, has ramifications in Sao Paulo and Minas Geraes.

An individual named Jean Fedher, who resided in Petropolis, was the chief conspirator here, although it is understood that foreign anarchists are deeply involved in the plot. Fedher is believed to have fled to Sao Paulo, and police who know him have been sent to that place for the purpose of apprehending him.

One of the detectives who is well acquainted with Fedher having served on the police force at Petropolis for some time, returned from that place today, after having made investigations there, and had a long conference with the Chief of Police at Rio Janeiro. The latter gave it out later that the Sao Paulo police expected to arrest the arch conspirator soon.

#### Police Chief's Note.

In an official note which the chief of Police sent to the correspondent of the Associated Press, he says:

"Some time before the arrival of the American fleet at Rio Janeiro, the Brazilian government received from Washington and Paris information that anarchists of different nationalities intended to damage one or several of the ships of the fleet.

"The names and addresses of the conspirators were indicated by information which the police had received from France and Germany.

"The police of this district are working with the police at Sao Paulo and Minas Geraes, and I am sure every precaution will be exercised and the most rigorous vigilance observed, both on land and at sea, to prevent any injury being done."

The chief of Police, after having made this official statement, said he did not feel that he should go into further details with regard to the conspiracy, but he authorized the statement that the plot was organized by Fedher and he added that the people of the United States could rest easy, as all of the conspirators had taken refuge in the interior.

#### QUESTION OF SECTION ROADS

**Bryan County Commissioner Wants Ruling on Convict Labor.**

Durant, Ok., Jan. 19.—J. M. Abbott, chairman of the board of county commissioners of Bryan county, has left for Guthrie, where he will endeavor to learn the possibility of working county convicts on the roads. He will also try to learn whether or not there is any law governing the opening of roads along the section lines in the eastern half of the state.

A number of farmers in that section of the state have farmed over the section lines, not knowing where they were, and have crops standing on the section roads now. If the roads should be opened up the crops would be destroyed.

#### BRYAN WILL HELP BECKHAM.

**Will Also suggest Bank Deposit Guarantee Statute to the Legislature.**

Frankfort, Ky., Jan. 19.—William Jennings Bryan will come to this city next Tuesday morning and urge the democrats of the Kentucky legislature to elect ex-Gov. Beckham to the United States senate. This visit is entirely on his own initiative.

The occasion will be a democratic love feast. Beckham has accepted Bryan's offer of assistance and tomorrow a resolution will be adopted by both houses of the general assembly inviting Bryan to make an address.

Democratic members of the legislature have sent out invitations today to the leaders and prominent members of the party in every section of the state to be present.

M. Bryan will also suggest legislation covering the state guarantee deposit law for banks.

**OKLAHOMA LEGISLATURE IS CONSIDERING MEASURES TO RESTRICT TEXAS CATTLE.**

### TO INVESTIGATE DIPPING

Proposed Statute Would Permit Residents of Counties to Vote on Admitting Stock.

Guthrie, Ok., Jan. 18.—This session of the Oklahoma legislature will witness a vigorous contest to enact more stringent live stock quarantine laws, the result of which, if carried, will have the effect of preventing cattle from Texas seeking pasturage in Oklahoma. The bill by Mr. Frasier of Noble county and Mr. Tillotson of Nowata introduced in the house, make the general quarantine lines the borders of the State, stipulating there shall enter no cattle from the infected districts, the South, the East nor the West. The act, it is held, would in no way conflict with the federal regulations on the same subject.

It is provided in the bill that any county which desires Southern cattle to be brought in for feeding or other purposes may submit the question to a vote of the people, and if carried by two-thirds, shall become operative.

This is conditioned that such shipments shall be confined to the months of December, January and February, and they only after the cattle have been dipped or disinfected as per the requirements of the State Board of Agriculture.

The commissioners of counties are required by the act to co-operate with the inspectors of the state in carrying the quarantine laws into effect. Under the terms just quoted, cattle could not be shipped from one county to another, but there is no attempt to prevent the shipping of cattle through the state.

#### Afraid of Texas Tick.

The lower house has a petition with forty-eight signers, circulated in Noble county, calling particular attention to the shipment of Texas cattle to the Otee, Mo., and Osage reservations for feeding purposes and complaining that the result the native cow is infected with the Texas tick or Southern fever.

The petition states, without offering basis for confirmation, that certain railroads have conspired with the Interior Department to perpetuate the system of shipping and feeding in the sections named.

The bill by Senator Blair, which passed the Senate Friday, appropriated \$30,000 for use in the inspection of cattle and carrying out the state's scheme of quarantine. The matter of quarantine regulation is placed under charge of the board of agriculture with power to establish lines and prevent the shipment of diseased cattle into the state.

The act, however, suggests that the board shall investigate the method of dipping and disinfecting and adopt rules to cover them. In a few features the bill is merely amendatory of the present law inherited from Oklahoma Territory.

At present the quarantine rules of Oklahoma are chiefly those the former board adopted. The quarantine line has been extended across the state, east to the Arkansas line, along the northern boundary of Wagoner and Adair counties, leaving only the Creek Choctaw and Chickasaw Nations in what might be termed "open territory." The line was established in November. The board will have a meeting the coming week and may propose changes in the existing regulations.

It is the desire of the department to settle the matter early in order that the cattle men who make spring contracts may know what will be required. These contracts are usually closed during the Texas Association which this year takes place at San Antonio in March. Heretofore one "dip" has been held sufficient, but there is some word of the treatment being doubled, which cattlemen say would be injurious to the stock.

#### Many Texas Cattle.

The shipment of Texas cattle to Oklahoma pastures amounts to something more than the average person knows

It is the experience of some cattlemen that the Texas steer after being dipped comes forth a more vigorous animal, even than the native cow. It has been held that the dipping kills the tick and with the tick absent, fever is the greatest exception.

#### MAY NOT USE FIRE INSURANCE.

**Attorney General Advises Oklahoma University Board of Regents.**

Guthrie, Ok., Jan. 19.—The Attorney General's office has rendered an opinion to Clifton J. Pratt and Flowers Nelson, appointed by the board of regents of the state university as a special committee, to the effect that the insurance money collected on the main building of the University, recently destroyed by fire, can not be used by the board to construct a new building, until the Oklahoma legislature has so provided.

The opinion holds that the state treasurer can not honor warrants on this fund except in pursuance of an appropriation by law, as provided by the constitution of the state, and that the funds are under the management of the state.

The committee wrote the attorney general a letter stating that as the building was partly covered by insurance—about \$65,000—and that as the insurance companies had signified their intention of paying the insurance the board of regents wanted to know to whom the money should be paid. The money was desired by the board, the letter stated, to be used in the construction of a new building to replace the one destroyed.

The board of regents of the state university have been in session here for two days, preparing their report to

the state legislature. This report has always been made to the legislature was held last year the report covers a period of three years.

## FROM LIVING TOMB

RESCUE OF THREE MEN IMPRISONED 46 DAYS IN MINE AT ELY, NEV.

## GREETED WITH CHEERS

Whistles Throughout the District  
Blow and Bells Are Set a Ringing.

Ely, Nev., Jan. 19.—After having been entombed forty-six days in the Alpha shaft of the Circoux mine, A. D. Bailey, P. J. Brown and Fred McDonald were rescued last night. At 8:30 o'clock Bailey was brought out. Fourteen minutes later McDonald reached the surface, while ten minutes later Brown was brought up.

Whistles over the district blew loudly, while crowds cheered in the streets of Ely and every bell in the town was set to ringing.

"Ah!" this was the first exclamation of Bailey when he reached the outer air. Without another word he tottered forward into the arms of comrades who stood ready to assist him and was led to the change room of the Alpha shop, where in a few minutes he recuperated.

"By George, it certainly seems fine to be out of the hole," said Fred McDonald as he was led away, telling his brother in a high pitched voice of his terrible experience.

"Say, somebody give me a chew of tobacco," said Brown, "I'm on the bum all right."

News that the men were about to be rescued reached Ely shortly after 11 o'clock yesterday. About 3 o'clock last night the fact that an entry to the surface of the debris in the mainway

had been effected was telephoned to the men anxiously waiting at the top. The entombed men had been working several hours in digging their way to freedom from the 1,000-foot level. The rescuers at the same time were doing all in their power to remove the earth that was blocking the mouth of the 1,000 foot tunnel.

On the morning of Dec. 4, McDonald, Brown and Bailey and two Greeks were working in the bottom of the three compartment shaft, eighty-five feet below the pump station and 1,000 feet below the surface. A cave-in occurred at 9 o'clock. The cable used to haul the cage from the third compartment of the shaft snapped and thousands of tons of rock, debris and timbers fell down into the shaft.

From the bottom of the compartment in which the men were working to the pumping station, a distance of eighty-five feet, a series of rickety ladders offered the only means of escape.

With falling rock and timber streaming down upon them, the five men struggled up the ladders. Half way up, falling timbers knocked the two Greeks from the ladders, killing them. Bailey, McDonald and Brown managed to reach the pump station. It was well timbered roof withstood the rock and timber that came down the shaft and offered them shelter and safety. Here for the first day after the cave-in the men crouched, while at intervals they could hear the rocks and timbers crashing above them.

At first it was thought all the men had perished, but twenty-four hours after the cave-in the three men who occupied the pumping station managed to make themselves heard by tapping upon the six-inch water pipe that stretched from the pumping station to the surface. It was this pipe that was the means of saving the lives of the trio.

TRANSIT OF LIQUOR. Tillman Urges Bill Regulating Importation From One State to Another.

Washington, Jan. 18.—The Senate Committee on Judiciary today took up the various prohibition measures before it and heard Senator Tillman on his bill regulating the importation of liquor into one state from another. He argued that it was competent for congress to take a hand in this question and relegate it to the control of the states as a police power.

### DEMOCRATIC CALL ISSUED.

Official Action Sets Time of State Convention Feb. 22.

Guthrie, Ok., Jan. 18.—The official call of the state democratic convention to be held in Muskogee Feb. 22 was issued today. It contains the recommendation of the state committee, which met here some weeks ago, that counties hold conventions Feb. 15 to select delegates to the state convention. County conventions are authorized to give expression to their choice for democratic national committee to be named by the delegates to the national convention at Denver. In addition to naming the delegates to the Denver convention, the state convention will nominate one presidential elector from each of the congressional districts, and two at large. Basis of representation in the state convention will be one delegate for every 1,000 votes cast for governor in the last election.

First published Jan. 17-d15t

### Notice of Sale.

In the District Court of Pontotoc County State of Oklahoma. J. M. Bruner, plaintiff vs. Harry Bowler, defendant.

By virtue of a judgment of the district court of Pontotoc county, state of Oklahoma and process thereunder I will sell to the highest bidder on three months time with approved security in front of the court house in the town of Ada, Okla., the following described property to-wit: Lots 9, 10 and 11 in block 40 together with one two room house and other improvements thereon. Said sale being made under a judgment enforcing a vendors lien for the sum of \$250 with interest at 10 per cent interest from the 4th day of Oct., 1906, and \$13.85 cost adjudged to the plaintiff, J. M. Bruner against the said Harry Bowler, which sale will occur between the hours of one and three o'clock on the 7th day of Feb., 1908.

T. J. SMITH, Sheriff Pontotoc County, Ok.

### First Anniversary.

### Haskell Honors Lee.

Oklahoma City, Ok., Jan. 19.—Gov. C. N. Haskell was the principal speaker at the memorial exercises commemorating the 101st anniversary of the birth of Gen. R. E. Lee, held under the auspices of the Daughters of the Confederacy here this afternoon. Rev. P. R. Knickerbocker, formerly of Dallas, also delivered an address.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by G. M. Ramsey.

### Court House.

Court resumed its duties again this morning for the third week. Judge West, who was complaining with a severe cold last week is much refreshed from his short rest and will push the docket the few remaining days.

The first case up today was that of the state vs. Walter Copeland charged with assault to kill. It will be remembered that this case grew out of the shooting of little Theo. Jones at Center, March 23, 1906.

Several cases have been transferred to other courts most of these going to Murray county.

The following cases have been dismissed: Bunyon Hennegan assault to kill; Nov Collins, larceny; Sam Sparks false pretense; L. H. Braley, larceny; E. O. Christum, assault to kill; H. G. Malot, W. H. Dill and J. S. Guyer, conspiracy and J. E. Guyer, bigamy.

Judge West goes from here to Atoka where he will hold from Monday, the 27.

### \$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### THE "SECRET OF SECRETS"

In Store Advertising.

One of the wisest of men wrote:

"Suffer any person to tell us his story, morning and evening, for but a twelve-month, AND HE WILL BECOME OUR MASTER!"

In the above sentence we have, in a nutshell, the INNERMOST SECRET OF SUCCESSFUL ADVERTISING—frequency, and persistency, and unvarying continuity in the telling of the story of store or enterprise. There are many other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret—THE HEART OF THE WHOLE MATTER!

### A Pleasant Evening.

One of the most enjoyable affairs of recent date was the banquet at the Steiner home Saturday evening, given by that all round good fellow M. D. Steiner, in honor of a number of "Knights of the Quill" of Ada and adjoining towns.

A very bountiful repast was spread and greatly enjoyed by the lank newspaper boys present, and it was indeed enjoyable to see Mr. Steiner, who looks like he was never hungry in his life, but always full, sit by and enjoy seeing the hungry, gant, lean, lank newspaper men enjoy to the fullest degree, the bountiful and elaborate spread of good things to eat. After the feast, the guests spent two hours in pleasant conversation discussing the reminiscences of the past and other matters for the good of the fraternity. Each guest is indebted to Mr. Steiner for a neat book, entitled "The History of Paper Making." The volume is neat and instructive, and was appreciated by the recipients.

The guests were G. B. Spears, Byron Norrell, Miles Grigsby, Jno. Duron, of Roff; A. B. Yeager, Stonewall, J. O. McMinn, Konawa, R. O. Wheeler and Carlton Weaver.

M. D. Steiner was for more than two years, business manager of the News and it was he who helped us launch the Evening News nearly four years ago. Since severing his connection with the News he has been traveling for Butler-Jarbo Paper Co., and in this position has made good. His territory is all Oklahoma and part of Texas, and he covers the ground he stands on.

The ladies of the First Methodist church will hold a two days' sale at Westcott's next Wednesday and Thursday, Jan. 22d and 23d. New goods at right prices. We solicit your liberal patronage.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital "recipe," no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

## A School for Servants.

Bridget and Dinah and Katrina continue to receive the censure, not to say abuse, of the public press and private individuals for their alleged unsatisfactory performances of their duties in the kitchen, in the laundry, in the dining room—in short, “upstairs, downstairs, and in their ladies’ chambers.” The abuse is sometimes extravagant and the censure undeserved. Bridget and Dinah and Katrina often do much better than the newspapers and the mistresses would have us believe. But, conceding that, upon the whole, household servants are not as efficient as they might be, is it surprising? If you found a man who had never driven a plane or handled a saw, and set him to work at the frame of a house, and presently began to beat him because he was a poor carpenter, you would make yourself more ridiculous than you would make him. If you wanted a coachman, or a groom, you would hardly engage one who had never seen a horse. If you did, and your stock were badly cared for and yourself run away with, you would be laughed at if you blamed your incompetent retainers. Yet this is just what is done by housekeepers in regard to servants, says the New York Weekly. It is as unreasonable to expect women to cook or do other household work before learning how as to expect a man to build a house or manage horses without any instruction or experience. What is needed is a school for servants, or a system of apprenticeship, or some other means of training them to household work before they are called upon to fill household positions.

## Anniversary of Anthracite.

Anthracite coal was first used for domestic fuel in February, 1808, although it had been used by gunsmiths and blacksmiths for nearly 40 years previously. Judge Jesse Fell, of Wilkesbarre, Pa., adjusted a grate of iron bars in the fireplace in the public room of the Fell tavern, and proved to his neighbors that the “black stones” would burn without the use of a forced draft. The Wyoming Historical and Geological society has lately sent out a call for the celebration of the hundredth anniversary of this event next February. Bituminous coal had been used in this country long before 1808. It was discovered near Richmond, Va., in 1710, and mining operations were begun in 1750. In England, as far back as 1180, the records of the bishop of Durham show entries of leases for the privilege of mining “pit coal,” as it was then called. Those who object to the present high price of anthracite may be interested to know that soon after its introduction as domestic fuel the price was six and eight dollars a ton. Even at these figures the people were “burning diamonds,” for anthracite coal is, next to the diamond itself, the purest form of carbon found in a natural state. The best quality of anthracite contain not more than five per cent. of other substances.

An unusual view of the army has lately been presented in a complaint from Washington over the decrease in strength of the coast artillery regiments. The Tenth company, for instance, which mustered a hundred and one men in 1900, was able to get out only 14 in the ranks in October. The explanation offered is that the men in the coast artillery receive training in some branch of mechanics, and can get employment outside at good wages. One officer instructed his company in the art of telephone repairing, and made the men so efficient that the telephone company in the neighboring city offered them \$60 and \$70 a month, and in some cases bought the discharge of the men, so that they might begin work before their enlistment expired. If the army can train its men as effectively as this it ought to be a pretty good school.

The fireless cook stove has been improved in Germany so that it now not only cooks, but fries and roasts. Frying and roasting are accomplished by the use of a stone, which is thoroughly heated and is then placed in the cooker with the steak or roast. The box is sealed up and left for an hour or so, as required, then opened, and the food is fully prepared and hot. In the double boxes all three processes may proceed at one time without care or difficulty. The makers of the cookers expect to sell 50,000 in Germany and Switzerland this year.

A German company is now telephoning wirelessly from Nauen to various places in Germany, 50 to 60 miles distant. One of the managers of the company said at Berlin that conversations had been conducted with extreme clearness and precision.

## THE SMALLEST HUMAN BRAIN.

Proof That Size of Organ Does Not Measure Intellect.

What is believed to be the smallest brain ever found in a normal human being was revealed as a result of an autopsy performed at the New York city morgue upon the body of Daniel Lyons, a watchman, employed in the Pennsylvania tunnel excavation. Lyons became ill suddenly while at work, and, having had no medical attendance, his death came technically under the investigation of the coroner. Dr. Philip O'Hanlon, who, with Prof. John E. Larkin, of the College of Physicians and Surgeons, made the autopsy, found that the brain of Lyons weighed only 24 ounces, although the normal weight of the human cerebrum is from 48 to 50 ounces. Lyons was 40 years of age, five feet five inches in height and weighed 140 pounds. Those who had known him for many years testified that he was of average intelligence. The cause of the man's death was inflammation of the kidneys. The man's brain seemed in every way normal except as to size. “It is one of the most remarkable brains I have ever seen,” said Dr. O'Hanlon, who has made thousands of autopsies, “and it shows that the size of the brain does not necessarily measure the intellect of man. Lyons was, from all that I can learn, intelligent and capable. The quality of the brain, and not the size of it, counts. One of the smallest brains known to anatomists was that of Gambetta, at one time president of France, and a brilliant and forceful thinker.” Comparative tables of the weights of human brains bear out the idea of Dr. O'Hanlon that there is little connection between the weight of the brain and the power of the intellect.

## One by Admiral Evans.

Rear Admiral Robley D. Evans told the following story apropos of justice as administered in the American court at Shanghai:

“Four men were in the dock,” said the admiral, “when his honor mounted to the bench. Three were Chinamen and the fourth a sailor from my ship. The judge said to the first Chinaman: ‘What is your name?’

“‘Ah Ling,’ was the response. ‘What was the matter with you?’ asked the judge.

“‘Dunk,’

“‘Thirty days, and get out of here,’ sentenced his honor. ‘Next. What's your name?’

“‘Ah Sung,’ responded the second Chinaman.

“‘What was the matter with you?’

“‘Dunk.’

“‘Thirty days, and get out. Next. What's your name?’

“‘Ah Lee,’ replied the third Chinaman.

“‘What's your trouble?’ asked the judge.

“‘Dunk.’

“‘Thirty days. Next. What's your name?’

“‘Ah, h—l, give me 30 days and let me go,’ was the prompt reply of the American sailor.”—Chicago Record-Herald.

## No More Dark Brown Sugar.

“You have no idea,” said the wife who is also an excellent cook, “how difficult it is to make molasses cookies and gingerbread and brown bread so it will have the same flavor that it had in the days now past. And why? Because it is wellnigh impossible to find the good old-fashioned dark-brown sugar. That's the secret of it. There was a time when one could get different grades of brown sugar, that which was least ‘refined’ being very dark and vastly sweeter than the light brown or ‘C’ sugar, as it used to be called. But those days have passed, and I suppose that never again will my cooking taste quite so good.

“Of course the younger people, those who have never known the exquisite flavor of molasses candy and molasses cake made with the dark sugar, cannot realize the difference. Happy mortals they! As for myself, I am constantly looking for the sugar of my childhood, and there is not a week but I have my hopes raised by some storekeeper telling me he has it; but he is mistaken—it is the light brown sugar he has, and not that which I seek.”

## Military Prisoners.

Although living in a part of New York city, the 100 or more military prisoners on Governors' Island have many customs which make it seem as though they were another land. Time is not counted by them in mere days, weeks and months, but in “brooms.” Many of the prisoners are short-term men, and they are detailed to police the grounds. Of course, this means much sweeping, and a broom lasts about a month. Thus, two “brooms,” in army lingo, means two months. No prisoner is permitted to salute an officer in the manner prescribed for soldiers who behave themselves. Instead, they fold their arms and look straight to the front whenever they pass those entitled to a salute. A soldier who is a prisoner is never referred to by his name; his official number, which is stenciled upon his clothing, is used instead.

## Help Near at Hand.

Gyer—What's the matter, old man? You look as mad as a March hare.

Myer—Mad! I'm so mad I can hardly see straight!

Gyer—That being the case, I'd advise you to visit that bottling establishment just around the corner.

Myer—What for?

Gyer—Why, for the purpose of bottling up your wrath.

## VIRGINIA MERCHANT RID OF A VERY BIG GRAVEL STONE.

Another Remarkable Cure of Serious Kidney Trouble.

C. L. Wood, a prominent merchant of Fortress, Norfolk Co., Va., was suffering some months ago with frequent attacks of hard pain in the back, kidneys and bladder and the kidney secretions were irregularly scanty or profuse. Medical treatment failed to cure him.

“At last,” says Mr. Wood, “I began using Doan's Kidney Pills, and before one box was gone, I went through four days of intense pain, finally passing a stone, one-half by five-sixteenths of an inch in diameter. I haven't had a sign of kidney trouble since.”

Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## OBJECT LESSON FOR CHILDREN.

Mayor Was Quick to See and Impress Good Point.

It was five minutes before noon. The mayor and the state superintendent had spent an hour talking to the children in an Ohio school, and just before the stroke of the gong the chairman of the local school committee was called upon to follow them.

“Children,” he said, pointing toward the window, “as you go out from the school in about two minutes you will see a gang of men who are now shoveling clinders into a railway train. They are earning \$35 a month.

“Beside them is a timekeeper earning \$55.

“At the head of the train is an engineer getting \$100, and over him is a superintendent getting two hundred.

“What is the difference between those men? Education. Get all you can of it.”—Youth's Companion.

## THEN IT LOOKED ABOUT RIGHT.

Coal Dealer Understood When Told What Load Represented.

John D. Rockefeller, Jr., in one of the last addresses that he made to his Sunday school class before abandoning it, said of carefulness in business: “Too many business men are careful on one side, their own side, only. Thus a coal dealer whom I used to know shouted one afternoon to an employee who was driving out of the yard: ‘Hold on there, Jim! That coal can't have been weighed. It looks a trifle large for a ton to me.’

“Jim shouted back: ‘This ain't a ton, boss. It's two tons.’

“‘Oh, all right,’ said the dealer, in a modified tone. ‘Beg your pardon; go ahead.’”

## Both Worked Well.

A correspondent sent this “pome” to the New York Sun: Jack Spratt beneath his hat concealed a shining pate; his wife she wore a budding beard, most foolish to relate. Apothecary shops they sought in utter despair. “Sure Hair Restorer” Jack then bought; his wife bought “Anti-Hair.” One night some sprite in dire delight the bottles did misplace, and Mrs. Jack applied, alack, Jack's lotion to her face. While Jack, alack, took from the rack a bottle on which read: “Depilatory. Use with Care,” and doused it on his head. Jack Spratt beneath his hat now sports a lion's mane, his wife is happy, for her face is soft and smooth again.

“I know, so am I. But what does he do for a living?”

Why Sloan's Liniment and Veterinary Remedies Are the Best to Use.

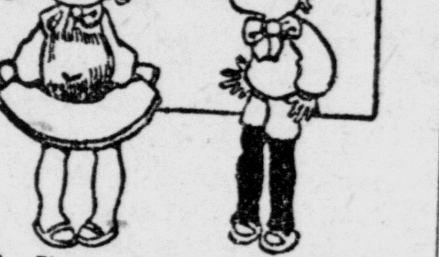

Let me tell you why Sloan's Liniment and Veterinary Remedies are the safest and most practical on the market to-day. In the first place, Dr. Earl S. Sloan is the son of a veterinary surgeon, and from his earliest infancy he was associated with horses.

He bought and sold horses while yet very young. He practiced as a veterinary for 20 years and has battled successfully with every disease to which that animal is subject.

All his remedies are the result of experiments made to save life or relieve suffering while he was practicing his profession.

Any reader, by writing to Dr. Earl S. Sloan, 615 Albany Street, Boston, Mass., will receive “Sloan's Treatise on the Horse,” free. This book tells how to treat horses, cattle, hogs, and poultry.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. Sold by Druggists, etc. F. J. Picture books for the benefit of travelers are kept in the Paris police stations. The picture books contain representations of various articles, and the inquirer has only to turn the leaves and point out the illustrations which resemble the property he lost.

## TO HARM WARSHIPS NEW QUARANTINE LAW

BRAZILIAN POLICE UNEARTH AN-  
ARCHIST PLOT TO DESTROY  
AMERICAN FLEET.

### FLEE TO THE INTERIOR

Flight of Conspirators Sets at Rest  
Fears of Damage to Ships.  
Archconspirator a Native.

Rio Janeiro Jan 19.—The Brazilian police have discovered an anarchistic plot here having as its object the destruction of part of the American fleet now lying in the harbor. The conspiracy while centering in Rio Janeiro and Petropolis has ramifications in Sao Paulo and Minas Geraes.

An individual named Jean Fedher who resided in Petropolis was the chief conspirator here although it is understood that foreign anarchists are deeply involved in the plot. Fedher is believed to have fled to Sao Paulo and police who know him have been sent to that place for the purpose of apprehending him.

One of the detectives who is well acquainted with Fedher having served on the police force at Petropolis for some time returned from that place today after having made investigations there and had a long conference with the Chief of Police at Rio Janeiro. The latter gave it out later that the Sao Paulo police expected to arrest the archconspirator soon.

#### Police Chief's Note

In an official note which the chief of Police sent to the correspondent of the Associated Press he says:

Some time before the arrival of the American fleet at Rio Janeiro the Brazilian government received from Washington and Paris information that anarchists or different nationalities intended to damage one or several of the ships of the fleet.

The names and addresses of the conspirators were indicated by information which the police had received from France and Germany.

The police of this district are working with the police at Sao Paulo and Minas Geraes, and I am sure every precaution will be exercised and the most rigorous vigilance observed both on land and at sea to prevent any injury being done.

The chief of Police after having made this official statement said he did not feel that he should go into further details with regard to the conspiracy but he authorized the statement that the plot was organized by Fedher and he added that the people of the United States could rest easy as all of the conspirators had taken refuge in the interior.

#### QUESTION OF SECTION ROADS

Bryan County Commissioner Wants  
Holding on Council Labor.

Durant Ok Jan 19.—J. M. Abbott chairman of the board of county commissioners of Bryan county has left for Guthrie where he will endeavor to learn the possibility of working county convicts on the road. He will also try to learn whether or not there is any law governing the opening of roads along the section lines in the eastern half of the state.

A number of farmers in the section of the state have farmed over the section lines not knowing where they were and have crops standing on the section roads now. If the roads should be opened up the crops would be destroyed.

#### BRYAN WILL HELP BECKHAM.

Will Also suggest Bank Deposit Guarantee Statute to the Legislature.

Frankfort Ky Jan 19.—William Jennings Bryan will come to this city next Tuesday morning and urge the democrats of the Kentucky legislature to elect ex-Gov. Beckham to the United States senate. This visit is entirely on his own initiative.

The occasion will be a democratic love feast. Beckham has accepted Bryan's offer of assistance and tomorrow a resolution will be adopted by both houses of the general assembly inviting Bryan to make an address.

Democratic members of the legislature have sent out invitations today to the leaders and prominent members of the party in every section of the state to be present.

M. Bryan will also suggest legislation covering the state guarantee deposit law for banks.

OKLAHOMA LEGISLATURE IS CON-  
SIDERING MEASURES TO RE-  
STRICT TEXAS CATTLE.

### TO INVESTIGATE DIPPING

Proposed Statute Would Permit Res-  
idents of Counties to Vote on  
Admitting Stock.

Guthrie Ok Jan 18.—This session of the Oklahoma legislature will witness a vigorous contest to enact more stringent live stock quarantine laws the result of which if carried will have the effect of preventing cattle from Texas seeking pasturage in Oklahoma. The bill by Mr. Fraser of Noble county and Mr. Tillotson of Nowata introduced in the house make the general quarantine lines the borders of the state supplanting the shall enter no cattle from the infected districts the South the East and the West. The act if it is held would in no way conflict with the federal regulations on the same subject.

It is provided in the bill that any county which desires Southern cattle to be brought in for feeding or other purposes may submit the question to a vote of the people and if carried by two thirds shall become operative.

This is conditioned that such shipments shall be confined to the months of December, January and February and they only after the cattle have been dipped or disinfected as per the requirements of the State Board of Agriculture.

The commissioners of counties are required by the act to co-operate with the inspectors of the state in carrying the quarantine laws into effect. Under the terms just quoted, cattle could not be shipped from one county to another but there is no attempt to prevent the shipping of cattle through the state.

#### Afraid of Texas Tick.

The lower house has a petition with forty eight signatures circulated in Noble county calling particular attention to the shipment of Texas cattle to the Otoe Mo. and Osage reservations for feeding purposes and complaining that the result the native cow is infected with the Texas tick or Southern fever.

The petition states without offering basis for confirmation that certain railroads have conspired with the Interior Department to perpetuate the system of shipping and feeding in the sections named.

The bill by Senator Blair which passed the Senate Friday appropriated \$30,000 for use in the inspection of cattle and carrying out the state's scheme of quarantine. The matter of quarantine regulation is placed under charge of the board of agriculture with power to establish lines and prevent the shipment of diseased cattle to the state.

The act however suggests that the board shall investigate the method of dipping and disinfecting and adopt rules to cover them. In a few features the bill is merely amendatory of the present law inherited from Oklahoma Territory.

At present the quarantine rules of Oklahoma are chiefly those the former board adopted. The quarantine line has been extended across the state east to the Arkansas line along the northern boundary of Wagoner and Adair counties leaving only the Creek Choctaw and Chickasaw Nations in what might be termed 'open territory'. The line was established in November. The board will have a meeting the coming week and may propose changes in the existing regulations.

It is the desire of the department to settle the matter early in order that the cattle men who make spring contracts may know what will be required. These contracts are usually closed during the Texas Association which this year takes place at San Antonio in March. Heretofore one 'dip' has been held sufficient, but there is some word of the treatment being doubted, which cattlemen say would be injurious to the stock.

#### Many Texas Cattle.

The shipment of Texas cattle to Oklahoma pastures amounts to something more than the average person knows

It is the experience of some cattlemen that the Texas steer after being dipped comes forth a more vigorous animal even than the native cow. It has been held that the dipping kills the tick and with the tick absent fever is the greatest exception.

#### MAY NOTICE FIRE INSURANCE.

Attorney General Advises Oklahoma University Board of Regents.

Guthrie Ok Jan 19.—The Attorney General's office has rendered an opinion to Clifton J. Pratt and Flowers Nelson appointed by the board of regents of the state university as a special committee to the effect that the insurance money collected on the main building of the University recently destroyed by fire can not be used by the board to construct a new building until the Oklahoma legislature has so provided.

The opinion holds that the state treasurer can not honor warrants on the fund except in pursuance of an appropriation by law as provided by the constitution of the state and that the funds are under the management of the state.

The committee wrote the attorney general a letter stating that as the building was partly covered by insurance—about \$65,000—and that as the insurance companies had signified their intention of paying the insurance the board of regents wanted to know to whom the money should be paid. The money was desired by the board, the letter stated, to be used in the construction of a new building to replace the one destroyed.

The board of regents of the state university have been in session here for two days, preparing their report to

the state legislature. This report has always been made to the legislature was held last year the report covers a period of three years.

#### Picks Twenty-Six Cotton Bales.

Binger Ok, Jan 19.—A. S. Wyatt, a farmer living seven miles from here picked twenty-six 500-pound bales of cotton, from his thirty-acre field. At \$55 a bale it will be worth \$14,300 on the market. Mr. Wyatt has been a cotton raiser for sixteen years, and says that Caddo county is the best place he has found for raising cotton.

FROM LIVING TOMB

RESCUE OF THREE MEN IMPRISONED 46 DAYS IN MINE AT ELY, NEV.

GREETED WITH CHEERS

Whistles Throughout the District  
Blow and Bells Are Set a Ringing.

Ely, Nev., Jan. 19.—After having been entombed forty-six days in the Alpha shaft of the Circoux mine, A. D. Bailey, F. I. Brown and Fred McDonald were rescued last night. At 10 o'clock Bailey was brought on. Fifteen minutes later McDonald reached the surface while ten minutes later Brown was brought up.

Whistles over the district blew loudly while crowds cheered in the streets of Ely and every bell in the town was set to ringing.

Ah! this was the first exclamation of Bailey when he reached the outer air. Without another word he tottered forward into the arms of comrades who stood ready to assist him and was led to the change room of the Alpha shop where in a few minutes he recuperated.

By George it certainly seems fine to be out of the hole, said Fred McDonald as he was led away, telling his brother in a high pitched voice of his terrible experience.

Say somebody give me a chew of tobacco, said Brown. I'm on the bum all right.

News that the men were about to be rescued reached Ely shortly after 11 o'clock yesterday. About 3 o'clock last night the fact that in entry to the surface of the debris in the main way

had been effected via a lifeline to the men anxiously waiting at the top. The entombed men had been working a vertical hole in the rock, then was to freedom from the 1000 foot level. The rescuers at the same time were doing all in their power to remove the earth that was blocking the mouth of the 1000 foot tunnel.

On the morning of Dec. 1, McDonald, Brown and Bailey and two Greeks were working in the little shaft, three compartment shaft, eighty-five feet below the pump station and 100 feet below the surface. A cave-in occurred at 9 o'clock. The cable used to haul the cage from the third compartment of the shaft snapped and thousands of tons of rock debris and timbers fell down into the shaft.

From the bottom of the compartment in which the men were working to the pumping station a distance of eighty-five feet a series of rickety ladders offered the only means of escape.

With falling rock and timber straining down upon them the five men struggled up the ladders. Halfway up falling timbers knocked the two Greeks from the ladders. Killing them. Bailey, McDonald and Brown managed to reach the pump station. It was well timbered roof withstood the rock and timber that came down the shaft and offered them shelter and safety. Here for the first day after the cave-in the men crouched while at intervals they could hear the rocks and timbers crashing above them.

At first it was thought all the men had perished but twenty-four hours after the cave-in the three men who occupied the pumping station managed to make themselves heard by tapping upon the six-inch water pipe that stretched from the pumping station to the surface. It was this pipe that was the means of saving the lives of the trio.

TRANSIT OF LIQUOR.  
Tillman Urges Bill Regulating Importation From One State to Another.

Washington, Jan. 18.—The Senate Committee on Judiciary today took up the various prohibition measures before it and heard Senator Tillman on his bill regulating the importation of liquor into one state from another. He argued that it was competent for congress to take a hand in this question and relegate it to the control of the states as a police power.

### DEMOCRATIC CALL ISSUED.

Official Action Sets Time of State Convention Feb. 22.

Guthrie, Ok., Jan. 18.—The official call of the state democratic convention to be held in Muskogee Feb. 22 was issued today. It contains the recommendation of the state committee, which met here some weeks ago, that counties hold conventions Feb. 15 to select delegates to the state convention. County conventions are authorized to give expression to their choice for democratic national committee to be named by the delegates to the national convention at Denver. In addition to naming the delegates to the Denver convention, the state convention will nominate one presidential elector from each of the congressional districts, and two at large. Basis of representation in the state convention will be one delegate for every 1,000 votes cast for governor in the last election

### Court House.

Court resumed its duties again this morning for the third week. Judge West, who was complaining with a severe cold last week is much refreshed from his short rest and will push the docket the few remaining days.

The first case up today was that of the state vs. Walter Copeland charged with assault to kill. It will be remembered that this case grew out of the shooting of Little Theo. Jones at Center, March 23, 1906.

Several cases have been transferred to other courts most of these going to Murray county.

The following cases have been dismissed: Bunyon Hennessey assault to kill; Nov Collins, larceny; Sam Sparks false pretense; L. H. Braley, larceny; E. O. Christant, assault to kill; H. G. Malot, W. H. Dill and J. S. Guyer, conspiracy and J. E. Guyer, bigamy.

Judge West goes from here to Atoka where he will hold from Monday, the 27.

### A Pleasant Evening.

One of the most enjoyable affairs of recent date was the banquet at the Steiner home Saturday evening, given by that all round good fellow M. D. Steiner, in honor of a number of "Knights of the Quill" of Ada and adjoining towns.

A very beautiful repast was spread and greatly enjoyed by the bank newspaper boys present, and it was indeed enjoyable to see Mr. Steiner, who looks like he was never hungry in his life, but always full, sit by and enjoy seeing the hungry, gant, lean, bank newspaper men enjoy to the fullest degree, the bountiful and elaborate spread of good things to eat. After the feast, the guests spent two hours in pleasant conversation discussing the reminiscences of the past and other matters for the good of the fraternity. Each guest is indebted to Mr. Steiner for a neat book, entitled "The History of Paper Making." The volume is neat and instructive, and was appreciated by the recipients.

The guests were G. B. Spears, Byron Norrell, Miles Grigsby, Jno. Duron, of Roff; A. B. Yeager, Stonewall, J. O. McMinn, Konawa, R. O. Wheeler and Carlton Weaver.

M. D. Steiner was for more than two years, business manager of the News and it was he who helped us launch the Evening News nearly four years ago. ## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain condition. Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of this now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerve, alone brought this Remedy and is now Dr. Shoop and his Restorative. With one dose that original and highly vital principle, such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, head break and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

**A School for Servants.**  
Bridget and Dinah and Katrina continue to receive the censure, not to say abuse, of the public press and private individuals for their alleged unsatisfactory performances of their duties in the kitchen, in the laundry, in the dining room—in short, "upstairs, downstairs, and in their ladies' chambers." The abuse is sometimes extravagant and the censure undeserved. Bridget and Dinah and Katrina often do much better than the newspapers and the mistresses would have us believe. But, conceding that, upon the whole, household servants are not as efficient as they might be, is it surprising? If you found a man who had never driven a plane or handled a saw, and set him to work at the frame of a house, and presently began to be late because he was a poor carpenter, you would make yourself more ridiculous than you would make him. If you wanted a coachman, or a groom, you would hardly engage one who had never seen a horse. If you did, and your stock were badly cared for and yourself run away with, you would be laughed at if you blamed your incompetent retainers. Yet this is just what is done by housekeepers in regard to servants, says the New York Weekly. It is as unreasonable to expect women to cook or do other household work before learning how as to expect a man to build a house or manage horses without any instruction or experience. What is needed is a school for servants, or a system of apprenticeship, or some other means of training them to household work before they are called upon to fill household positions.

**Anniversary of Anthracite.**  
Anthracite coal was first used for domestic fuel in February, 1808, although it had been used by gunsmiths and blacksmiths for nearly 40 years previously. Judge Jesse Fell, of Wilkesbarre, Pa., adjusted a grate of iron bars in the fireplace in the public room of the Fell tavern, and proved to his neighbors that the "black stones" would burn without the use of a forced draft. The Wyoming Historical and Geological society has lately sent out a call for the celebration of the hundredth anniversary of this event next February. Bituminous coal had been used in this country long before 1808. It was discovered near Richmond, Va., in 1710, and mining operations were begun in 1750. In England, as far back as 1180, the records of the bishop of Durham show entries of leases for the privilege of mining "pit coal," as it was then called. Those who object to the present high price of anthracite may be interested to know that soon after its introduction as domestic fuel the price was six and eight dollars a ton. Even at these figures the people were "burning diamonds," for anthracite coal is, next to the diamond itself, the purest form of carbon found in a natural state. The best quality of anthracite contain not more than five per cent. of other substances.

An unusual view of the army has lately been presented in a complaint from Washington over the decrease in strength of the coast artillery regiments. The Tenth company, for instance, which mustered a hundred and one men in 1900, was able to get out only 14 in the ranks in October. The explanation offered is that the men in the coast artillery receive training in some branch of mechanics, and can get employment outside at good wages. One officer instructed his company in the art of telephone repairing, and made the men so efficient that the telephone company in the neighboring city offered them \$60 and \$70 a month and in some cases bought the discharge of the men, so that they might begin work before their enlistment expired. If the army can train its men as effectively as this it ought to be a pretty good school.

The fireless cook stove has been improved in Germany so that it now not only cooks, but fries and roasts. Frying and roasting are accomplished by the use of a stone, which is thoroughly heated and is then placed in the cooker with the steak or roast. The box is sealed up and left for an hour or so, as required, then opened, and the food is fully prepared and hot. In the double boxes all three processes may proceed at one time without care or difficulty. The makers of the cookers expect to sell 50,000 in Germany and Switzerland this year.

A German company is now telephoning wirelessly from Nauen to various places in Germany, 60 to 60 miles distant. One of the managers of the company said at Berlin that conversations had been conducted with extreme clearness and precision.

A wealthy New York society woman has abandoned a brilliant social career to become an interior decorator. That's nothing; lots of people abandon careers to do interior decorating—with liquid.

**THE SMALLEST HUMAN BRAIN.**  
Proof That Size of Organ Does Not Measure Intellect.

What is believed to be the smallest brain ever found in a normal human being was revealed as a result of an autopsy performed at the New York city morgue upon the body of Daniel Lyons, a watchman, employed in the Pennsylvania tunnel excavation. Lyons became ill suddenly while at work, and, having had no medical attendance, his death came technically under the investigation of the coroner. Dr. Philip O'Hanlon, who, with Prof. John E. Larkin, of the College of Physicians and Surgeons, made the autopsy, found that the brain of Lyons weighed only 24 ounces, although the normal weight of the human cerebrum is from 45 to 50 ounces. Lyons was 40 years of age, five feet five inches in height and weighed 140 pounds. Those who had known him for many years testified that he was of average intelligence. The cause of the man's death was inflammation of the kidneys. The man's brain seemed in every way normal except as to size. "It is one of the most remarkable brains I have ever seen," said Dr. O'Hanlon, who has made thousands of autopsies, "and it shows that the size of the brain does not necessarily measure the intellect of man. Lyons was, from all that I can learn, intelligent and capable. The quality of the brain, and not the size of it, counts. One of the smallest brains known to anatomists was that of Gambetta, at one time president of France, and a brilliant and forceful thinker." Comparative tables of the weights of human brains bear out the idea of Dr. O'Hanlon that there is little connection between the weight of the brain and the power of the intellect.

**One by Admiral Evans.**  
Rear Admiral Robley D. Evans told the following story apropos of justice as administered in the American court at Shanghai:

"Four men were in the dock," said the admiral, "when his honor mounted to the bench. Three were Chinamen and the fourth a sailor from my ship. The judge said to the first Chinaman: 'What is your name?' 'Ah Ling,' was the response. 'What was the matter with you?' asked the judge. 'Thirty days, and get out of here,' sentenced his honor. 'Next, What's your name?' 'Ah Sung,' responded the second Chinaman. 'What was the matter with you?' 'Thirty days, and get out. Next, What's your name?' 'Ah Lee,' replied the third Chinaman. 'What's your trouble?' asked the judge. 'Thirty days. Next, What's your name?' 'Ah, h—, I give me 30 days and let me go,' was the prompt reply of the American sailor."—Chicago Record-Herald.

**No More Dark Brown Sugar.**  
"You have no idea," said the wife who is also an excellent cook, "how difficult it is to make molasses cookies and gingerbread and brown bread so it will have the same flavor that it had in the days now past. And why? Because it is wellnigh impossible to find the good old-fashioned dark-brown sugar. That's the secret of it. There was a time when one could get different grades of brown sugar, that which was least 'refined' being very dark and vastly sweeter than the light brown or 'C' sugar, as it used to be called. But those days have passed, and I suppose that never again will my cooking taste quite so good. 'Of course the younger people, those who have never known the exquisite flavor of molasses candy and molasses cake made with the dark sugar, cannot realize the difference. Happy mortals they! As for myself, I am constantly looking for the sugar of my childhood, and there is not a week but I have my hopes raised by some storekeeper telling me he has it; but he is mistaken—it is the light brown sugar he has, and not that which I seek."

**Military Prisoners.**  
Although living in a part of New York city, the 100 or more military prisoners on Governors Island have many customs which make it seem as though they were another land. Time is not counted by them in mere days, weeks and months, but in "brooms." Many of the prisoners are short-term men, and they are detailed to police the grounds. Of course, this means much sweeping, and a broom lasts about a month. Thus, two "brooms" in army lingo, means two months. No prisoner is permitted to salute an officer in the manner prescribed for soldiers who behave themselves. Instead, they fold their arms and look straight to the front whenever they pass those entitled to a salute. A soldier who is a prisoner is never referred to by his name; his official number, which is stenciled upon his clothing, is used instead.

**Help Near at Hand.**  
Gyer—What's the matter, old man? You look as mad as a March hare.  
Myer—Mad! I'm so mad I can hardly see straight.  
Gyer—That being the case, I'd advise you to visit that bottling establishment just around the corner.  
Myer—What for?  
Gyer—Why, for the purpose of bottling up your wrath.

**VIRGINIA MERCHANT RID OF A VERY BIG GRAVEL STONE.**

Another Remarkable Cure of Serious Kidney Trouble.

C. L. Wood, a prominent merchant of Fortress, Norfolk Co., Va., was suffering some months ago with frequent attacks of hard pain in the back, kidneys and bladder and the kidney secretions were irregularly scanty or profuse. Medical treatment failed to cure him. "At last," says Mr. Wood, "I began using Doan's Kidney Pills, and before one box was gone, I went through four days of intense pain, finally passing a stone, one-half by five-sixteenths of an inch in diameter. I haven't had a sign of kidney trouble since." Sold by all dealers, 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**OBJECT LESSON FOR CHILDREN.**

Mayor Was Quick to See and Impress Good Point.

It was five minutes before noon. The mayor and the state superintendent had spent an hour talking to the children in an Ohio school, and just before the stroke of the gong the chairman of the local school committee was called upon to follow them. "Children," he said, pointing toward the window, "as you go out from the school in about two minutes you will see a gang of men who are now shoveling cinders into a railway train. They are earning \$35 a month. 'Beside them is a timekeeper earning \$55. 'At the head of the train is an engineer getting \$100, and over him is a superintendent getting two hundred. 'What is the difference between those men? Education. Get all you can of it.'—Youth's Companion.

**THEN IT LOOKED ABOUT RIGHT.**  
Coal Dealer Understood When Told What Load Represented.

John D. Rockefeller, Jr., in one of the last addresses that he made to his Sunday school class before abandoning it, said of carefulness in business: "Too many business men are careful on one side, their own side, only. Thus a coal dealer whom I used to know shouted one afternoon to an employee who was driving out of the yard: 'Hold on there, Jim! That coal can't have been weighed. It looks a trifle large for a ton to me.' 'Jim shouted back: 'This ain't a ton, boss. It's two tons.' 'Oh, all right,' said the dealer, in a modified tone. 'Beg your pardon; go ahead.'"

**Both Worked Well.**  
A correspondent sent this "pomo" to the New York Sun: Jack Spratt beneath his hat concealed a shining pate; his wife who wore a budding beard, most foolish to relate. Apothecary shops they sought in utterest despair. "Sure Hair Restorer" Jack then bought; his wife bought "Anti-Hair." One night some sprite in dire delight the bottles did misplace, and Mrs. Jack applied, alack, Jack's lotion to her face. While Jack, alack, took from the rack a bottle on which read: "Depilatory. Use with Care," and doused it on his head. Jack Spratt beneath his hat now sports a lion's mane, his wife is happy, for her face is soft and smooth again.

**Why Sloan's Liniment and Veterinary Remedies Are the Best to Use.**

Let me tell you why Sloan's Liniment and Veterinary Remedies are the safest and most practical on the market to-day. In the first place, Dr. Earl S. Sloan is the son of a veterinary surgeon, and from his earliest infancy he was associated with horses. He bought and sold horses while yet very young. He practiced as a veterinary for 20 years and has battled successfully with every disease to which that animal is subject. All his remedies are the result of experiments made to save life or relieve suffering while he was practicing his profession. Any reader, by writing to Dr. Earl S. Sloan, 615 Albany Street, Boston, Mass., will receive "Sloan's Treatise on the Horse," free. This book tells how to treat horses; cattle, hogs, and poultry.

**Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a tendency to close, and hearing is lost. When this tube is closed, it has a tendency to become inflamed, and when it is inflamed, it has a tendency to close, and hearing is lost. It is this result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give you Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Mail's Catarrh Cure. Send for circulars free. P. O. CHENEY & CO., Toledo, O. Sold by Druggists. Take Hall's Family Pills for constipation.

**Traveler's Picture Books.**  
Picture books for the benefit of travelers are kept in the Paris police stations. It frequently occurs that foreigners lose things which they are unable to describe, because of their unfamiliarity with the French language. The picture books contain representations of various articles, and the inquirer has only to turn the leaves and point out the illustrations which resemble the property he lost.
